PROFILE SUMMARY

Experienced, versatile and results-driven SENIOR ServiceNow Developer with over a decade of experience of specialized experience in ServiceNow development and deployment across various industries. Proficient in a wide array of ServiceNow modules such as ITSM, ITOM, HRSD, GRC, CDMB, ITAM, CSDM, FSM, IRM and CSM. Passionate about delivering robust and scalable solutions, streamlining business processes, and enhancing user experience, while staying at the forefront of platform advancements to drive continuous improvement and innovation.

Interested in working in forward-thinking organizations where I can utilize my robust analytical abilities and extensive technical expertise in ServiceNow to boost organizational efficiency and outcomes.

- Architecture Design
- Process Improvement
- System Customization
- Integration & Migration
- Data Analysis & Reporting

WORK EXPERIENCE

AFNI INC

JAN 2024 - PRESENT

Lead ServiceNow Engineer/ Developer/ Architect

- Solution Design & Deployment:** I craft and deploy ServiceNow solutions that align with the organization's business needs. This includes designing and customizing workflows, forms, and reports to optimize platform functionality.
- System Integration & Configuration:** I configure essential ServiceNow modules such as Incident, Problem, Change, and Asset Management, and integrate ServiceNow with various systems to ensure seamless operations.
- Technical Support & Troubleshooting:** I provide comprehensive technical support, addressing and resolving complex issues that impact the functionality, efficiency, and security of ServiceNow solutions.
- Collaborative Leadership:** I work closely with company's business analysts, developers, and users to ensure solutions meet business objectives. I also lead technical projects and mentor our junior engineers to build their expertise.
- Continuous Improvement & ITIL Application:** I stay updated with the latest developments in the ServiceNow ecosystem and apply ITIL principles to manage and enhance IT service workflows effectively.
